GOCARDLESS

GoCardless
for Xero

powered by Directli

Take control of your payments with GoCardless, the UK's leading Direct Debit provider, and ensure your invoices get paid on time, every time. With automatic reconciliation within Xero, GoCardless will improve your cash flow and reduce your admin. Join over 30,000 businesses processing over £1bn a year and say goodbye to late payments.

Reduce admin

Stop chasing customers and automatically reconcile invoices with payments.

Get paid on time

Collect payments automatically for your Xero invoices as soon as they're due.

Reduce costs

Free integration. Pay just 1%, capped at £2 per transaction, with no set up costs or hidden fees.

Core Features

Quick and easy set up:

- ✔ Automatically sync your Xero customers
- ✔ Invite customers to sign up online
- ✔ Use Xero branding themes to manage payment options for your customers

Automatic reconciliation:

- ✔ Automatically reconcile bank feeds, GoCardless fees and mark your invoices as paid in Xero
- ✔ Real-time notification of failed payments or cancelled mandates
- ✔ Invite your accountant to manage your account for you
Flexible payments:

- ✔ Create an invoice in Xero and collect payment automatically
- ✔ Add a 'pay now' button to your invoices to take one off payments
- ✔ Collect regular payments on any day of the month
- ✔ Take payments across UK (Bacs) and the Eurozone (SEPA) and Sweden (Autogiro)

Signing up to GoCardless
# for Xero is quick and simple

1 Connect your account

Get started in minutes by signing up online. You will be asked to create a GoCardless for Xero account and connect it to both your GoCardless and Xero accounts. If you don't have GoCardless yet you can do this during sign up. The app will then take care of everything for you, or your accountant can manage your account on your behalf.

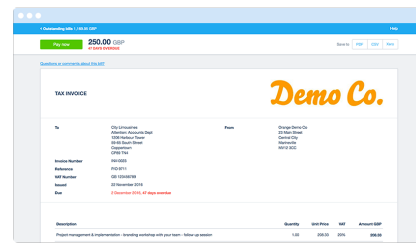

2 Set up your customers

Whenever you create a customer in Xero we can automatically send them a request to set up a Direct Debit. Alternatively, you can choose to manually email Direct Debit requests. If you're an existing GoCardless user, you can import your existing mandates and match them up to your Xero customers.

3 Start collecting payments

Each time you create an invoice in Xero you can collect the payment automatically by Direct Debit on the invoice due date. Alternatively, you can manually collect payments for specific customers or invoices. Collect payments in both Pounds and Euros.

4 Add a 'pay now' button to your invoices

Enable your customers to pay by Direct Debit for both recurring and one-off payments by adding a 'pay now' button to your online invoices.
Find out more.

5 Automatically reconcile invoices

Once you've received a payment, the relevant invoice(s) will be marked as paid with the GoCardless fee posted as an expense automatically.

"GoCardless has saved a tremendous amount of time, not having to chase clients for payment. There's no need to process payments through card machines or over the phone. It is all seamless. This has also helped us reduce cash flow problems, which is a big plus for our business,"

Barbara Gaunt
Office Manager, FD Works
